   calculator (no specific one)

Course Description:
This is Applied Calculus course. Topics covered include functions and their graphs,
limits, derivatives, applications of derivatives, integration, and applications of integration.

Grading Scale:

   A 90-100
   B 80-89
   C 70-79
   D 60-69
   F 59 and below

* +/- will be assigned for grades deserving
* Grade will be based upon the following:

   90% Exams
   10% Attendance/Homework
Each student is expected to take comprehensive notes from lectures, lessons, and instructional presentations. Each student is expected to make every possible effort to attend class. I will take attendance. Points will be deducted for any unexcused absences. If you do miss class, you are held responsible for anything that is covered. Each student is expected to attempt the homework assignments. I will randomly check your homework and record your efforts as points. Extra help is available if needed. If you come for extra help, you are required to show me your efforts on homework and class notes.

**Exam Schedule** (tentatively):

Exam 1 (after chapter 1 and 2: about Friday, September 21)
Exam 2 (after chapter 3,4: about Friday, October 26)
Exam 3 (after chapter 5,6: about Friday, November 30)
Final (cumulative Chapter 1-6: exact date Monday, December 10 11:30-2:00)
