Course Description (from the catalog)
Completion of an acceptable proposal of an original experimental or observational project dealing with an environmental topic.

Objectives of the Project
1. Perform a service learning project on passive treatment for acid mine drainage in collaboration with the Slippery Rock Watershed Coalition.
2. Continue to expand the mission of ALLARM through water quality testing/training, outreach events, and research.
3. Present the work at Student Symposium on the Environment.

Academic Integrity
The College’s Academic Integrity Policy (AIP) will be strongly enforced. Violations of the AIP include cheating, misconduct, plagiarism, and providing false information. Academic dishonesty will not be tolerated. The first citation for academic dishonesty will result in a zero grade for the specific assignment. The second citation will result in a failing grade for the course. All citations for academic dishonesty will be reported to the Dean of the College, in accordance with college policy. Details of the AIP can be found in the Westminster College Undergraduate Catalog.
