Content:
• student will complete an internship

Attendance: Attendance is required.

Academic policies:
Westminster College has adopted a standard academic integrity policy which is provided to you in your student handbook. In addition the department of Mathematics and Computer Science has a set of guidelines regarding academic honesty which can be found at: http://www.westminster.edu/staff/bonomojp/cheating.html. The policies discussed above are specific to my class. Breach of this academic honesty policy (ie cheating) results in a grade of 0 (zero) for that item. All incidents of cheating will be reported to the college Dean.

Disabilities and special needs: I will make any necessary, reasonable accommodations for students with disabilities. If you have a disability which requires accomodations, it is your responsibility to indicate to me that you have a disability and to discuss with me what special needs you might have regarding this class. In addition to notifying me, if you have a disability which requires class accomodations, you must make it known to Westminster College’s student affairs office so that they can send me the proper paperwork.
