Transfer Orientation looks a little different than a traditional orientation, but is designed to introduce you to essential information necessary for making a smooth transition to life at Westminster.

This orientation is designed for transfer students who have experienced a traditional orientation at their prior institution. It is not required, but will be tremendously helpful to your adjustment. Those wishing for a more robust schedule may opt into our full Orientation schedule by contacting Gina Vance, Associate Dean of Student Affairs at 724-946-7110.
