

# OPTIONS FOR VIDEO RECORDING

AVAILABLE FROM WESTMINSTER AUDIO VISUAL SERVICES

## Kodak HD Pocket Video Cameras

Kodak HD Video Cameras are AV Services' most intuitive, compact option for video recording. No tapes are needed and video can be transferred by USB connection; uses an SD card for memory.

## Flip Ultra Cameras

Flip Video Cameras are small and easy to use. Video from these cameras can be transferred directly to a computer via a USB connection. No tapes are needed, and HD options are available. (Note: that this older model may have poor battery life and may need to be kept plugged into a power source.)

## Panasonic HD Memory Card Video Cameras

The Panasonic Video Camera provides HD quality video recordings and a wide range of recording abilities. Uses an SD card for memory.

## Panasonic Mini DV Video Cameras

Digital Cameras provide a wide range of abilities for SD quality video recordings. These cameras use Mini DV tapes.

## Canon GL1 Digital Video Cameras

The Canon GL1 provides a high end option for experienced videographers. This camera has many advanced settings and provides SD quality video recording. The GL1 uses Mini DV tapes.

## VHS Cameras

VHS cameras provide a simple recording option and allows instant playback in a VHS player. VHS tapes must be used and can only be played in VHS players.
