

**POSITION VACANCY
Westminster College**

Electrician

Applications are being accepted for a full-time hourly position of Electrician in the Physical Plant Department. The individual in this position reports to the Assistant Director of the Physical Plant.

The Electrician is expected to provide competent service to the College's electrical distribution systems including all electrical load devices. Responsibilities include maintenance and repair of electrically-related systems and devices such as: emergency generators and their associated switchgear, wiring motors, circuit breakers, lamps/lighting, switches and outlets. The Electrician tests and maintains all Life Safety Systems including but not limited to fire panels, HVAC DDC controls and related cabling. This position also effectively troubleshoots and repairs faulty equipment and other systems as assigned.

Qualifications include a high school degree or G.E.D. equivalent and a minimum of five years of experience in the electrical field. Sufficient mathematical/conversion skills for estimation purposes, ability to read and follow blueprints/equipment specifications, manuals, schematics and wiring diagrams, ability to climb to the height of forty feet. Must own tools and vehicle that will be utilized for intra-campus use, parts pickup, etc.

Interested individuals should submit a cover letter and resume by no later than **September 1, 2022** to:
