Course Description
This course is designed to develop and improve the research skills of the students enrolled. Each student enrolled will conduct an independent research project.

Objectives
• Each student will develop a research question.
• Each student will create an experimental plan, including safety considerations and waste disposal.
• Each student will collect her/his own data.
• Each student will analyze her/her own data.
• Each student will prepare a report detailing her/his results and conclusions at the end of each semester.
• Each student will spend at least 6 hours per week conducting research for each credit earned.
• Each student will meet weekly with Dr. Sarver to discuss her/his progress on the project.
• Each student will frequently consult with Dr. Sarver to discuss the direction of the project and to troubleshoot, as needed.

Academic Integrity
The College’s Academic Integrity Policy (AIP) will be strongly enforced. Violations of the AIP include cheating, misconduct, plagiarism, and providing false information. Academic dishonesty will not be tolerated. The first citation for academic dishonesty will result in a failing grade for the course. All citations for academic dishonesty will be reported to the Dean of the College, in accordance with college policy. Details of the AIP can be found in the Westminster College Undergraduate Catalog.
